

CHAMPION™

MESH BACK

Designer Sava Cvek fused science with art to create Champion, a highly ergonomic chair that distills form to its functional essence. The patented hyperbolic mesh surface of the backrest conforms to different body types and changing work postures. The equally innovative back shell creates flex zones that ensure constant support for the entire back. Ergonomic controls and articulating arm caps allow sitters to further personalize their fit and comfort. Made with an attention to detail that extends to the precision of each component facet and material choice, Champion performs beautifully in every business environment.

ZOOM® Seating

Move Ahead.

CHAMPION MESH BACK

PERFORMANCE CHARACTERISTICS

- Mechanism choices:
 - Swivel tilt: Seat/back tilt as unit, tension adjustment and single-position lock
 - Multi-task: Seat/back tilt as unit with infinite-position lock, back adjusts independently of seat with infinite-position lock, forward tilt, tilt lock and tension adjustment
 - Knee tilt: Seat/back tilt as unit, free-floating with infinite-position lock, tension adjustment and reduced rise of front seat edge
- Elastomer mesh back
 - Interwoven mono- and multi-filaments: enables the backrest to conform to the body while retaining its original shape
 - 100% polyester
- Internal back-height adjustment (2.5" range)
- Pneumatic seat-height adjustment
- Waterfall seat edge free of seams and welts
